DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James A. Labarre on December 14, 2005.

Attorney agreed to cancel the claim 46.

Allowable Subject Matter

2. Claims 1 – 3, 5 – 20, 22 – 37, 39 – 45 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 10, 20, 27, and 40, for example, which include, a projection system having a quarterwave retardation film and a reflective

polarizer film placed in close proximity to planar light source to convert light from planar light source into a single polarization (claims 1 and 20); and a second imaging lens for imaging green planar light source onto a second light valve imager and a second polarizing beam splitter for separating the green input and a green output light on the second light valve imager ,a third imaging lens for imaging blue planar light source onto a third light valve imager and a third polarization beam splitter that separates blue input and output light on the third light valve imager and x – cube prism for combining the output red green and blue light from the first, second and third light valve imager (claims 10, 27 and 40) (note : claims 10, 27 and 40 are allowed previous office action).

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

5. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the

applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
